About the Education Resources Network

The Education Resources Network aggregates geoscience education resources from a variety of providers. The goal is to provide visitors with the widest possible collection of curricula, classroom activities, teacher professional development opportunities, science education standards, virtual field trips, teaching ancillaries and much more.

We are continually adding new content, so please check back frequently.

We encourage you to review our collections, [suggest other resources](#), and [let us know](#) when items are out of date or problematic for other reasons.
