## NAGT's Earth Educators Rendezvous in Madison

National Association of Geoscience Teachers

The National Association of Geoscience Teachers is currently hosting their second Earth Educators Rendezvous in Madison, WI. NAGT set up the rendezvous as a way to "bring together researchers and practitioners working in all aspects of undergraduate Earth education." They have been doing a fantastic job of updating their Facebook page, and the participants have been diligently using the official hashtag #eerendezvous16! We love seeing the hands-on activities, tours and focused discussion that is being facilitated by this event.
