## AESE Abstract Deadline: July 31st

Association of Earth Science Editors

Geological Society of America

The Association of Earth Science Editors is reminding geoscientists that the abstract deadline for their 50th Annual Meeting is quickly approaching. We have attached their call for abstracts to this post. The meeting follows GSA's annual meeting so the commute shouldn't be too difficult. Shout out to Sara Pratt, who is serving as the meeting host-chair and also doubles as a science writer for EARTH Magazine!
