

#Drones in the News

The White House Office of Science and Technology Policy (OSTP) is hosting a workshop "Drones and the Future of Aviation" today which can be live-streamed. OSTP also outlined key actions that will be announced today including: \$35 million in research funding from NSF, and a broad range of actions by the Department of the Interior, among other things. NASA has several scientists presenting, and co-hosting breakout sessions. NASA's press release also goes over the upcoming Technical Capability Levels that are being used to help build a safe and operational UAS Traffic Management. Today the USGS also publicized research utilizing drone technology as part of prescribed fire management.
