

## AAPG Energy Policy Blog: Induced Seismicity Update

American Association of Petroleum Geologists

Association of American State Geologists

AAPG's Energy Policy Blog has a new post on induced seismicity covering the reduction in injection-triggered earthquakes in Oklahoma, but also the role the economy is playing, and research updates. AGI and the Association of American State Geologists co-hosted a webinar, "Induced Seismicity in the Midcontinent" in April 2015.
