

## SSA Announces Seismology of the Americas

Seismological Society of America

The Seismological Society of America has announced it will host a joint international conference with the Latin American and Caribbean Seismological Commission. The meeting will be held in San Juan, Puerto Rico in April 2018. On the website it states, "The international conference, "Seismology of the Americas," will offer a program that reflects broad coverage of seismological topics of interest to the Latin American and Caribbean region, including tsunami and urban seismic hazards and regional seismic networks, as well as the full slate of SSA Annual Meeting sessions on topics including active tectonics, faults, and earthquakes; deep Earth structure and seismicity; induced seismicity; earthquake engineering; ground motion modeling; and volcanism."
