

Geoscience Currents #112 and #113

The American Geosciences Institute Workforce Program published Geoscience Currents #112 and #113. Currents #112 looked at the median salaries for geoscience-related occupations in 2015. The average median salary for geoscience-related occupations in 2015 was \$83,737. Currents #113 showed estimations of the relative size of the geoscience workforce in various countries.
