

SME Scholarship Season Opens

Society for Mining, Metallurgy & Exploration

The Society for Mining, Metallurgy & Exploration (SME), announced that it is accepting applications for the 2016 scholarship season through October 15, 2016. SME scholarships are available to SME student members who seek a career in the mining and minerals industries. This year more than \$425,000 in scholarships will be awarded by SME Divisions, the SME Foundation, the Women's Auxiliary to AIME (WAAIME), and the Underground Construction Association of SME (UCA of SME). Additionally, several memorial scholarships have been created to honor Society luminaries and their contributions to the industry. An online portal facilitates the application process, streamlining the procedure for both students and reviewers.
