## Critical Issues: Map of the Day - Oil and Gas Resources in Kansas

Interactive Map of Oil and Gas Resources in Kansas

#MapOfTheDay! Today the Critical Issues Program (@AGI\_GeoIssues) shared a map of oil and gas resources (and earthquakes!) in Kansas from the Kansas Geological Survey (@ksgeology), which you can find at <http://bit.ly/1CDQ6Ze>. If you're interested in the relationship between oil & gas operations and earthquakes, you can watch the Critical Issues webinar, *Induced Seismicity in the Midcontinent*, which also provides a wide variety of additional resources for further exploration of the topic.
