

John E. McCray

Professor and Head, *Civil and Environmental Engineering, Colorado School of Mines*

John McCray is Professor and Head of the Civil & Environmental Engineering Department at Colorado School of Mines, specializing in hydrology, water resources, and water quality. He is currently Mines PI of the NSF Engineering Research Center for urban water, ReNUWIt, the first ERC for water. He is a member of the U.S. EPA Science Advisory Board, a Fellow of the ASCE Environmental and Water Resources Institute, and was a Fulbright Fellow to Chile for water resources. He earned his PhD in hydrology and water resources from the University of Arizona, and a BS in engineering from West Virginia University.
