## Critical Issues: Map of the Day - Fault Activity in California

California Geological Survey

#MapOfTheDay! Today the Critical Issues Program (@AGI\_GeoIssues) shared an interactive map of fault activity in California from the California Geological Survey, which you can find at <http://bit.ly/1MM9qFS>. If you're interested in learning more about faults and earthquakes in California, you can find related reports, maps, and other documents in the Critical Issues Research Database.
