

Wendy J. Harrison

Professor, *Geology and Geological Engineering, Colorado School of Mines*

Wendy J. Harrison is a tenured Professor of Geology and Geological Engineering at Colorado School of Mines. Her fields of scholarly expertise are in geochemistry and hydrology as well as geoscience education and she has published papers in topics that range from impact shock metamorphism in lunar materials, the formation of gas hydrates and their role in CO₂ sequestration, metals uptake by trees in mined lands, and mitigating respiratory quartz dust hazard. Dr. Harrison recently completed an appointment at the National Science Foundation as Division Director for Earth Sciences in the Geosciences Directorate. She currently serves as an academic advisor to the Petroleum Institute, Abu Dhabi and Nazarbayev University, Kazakhstan. Her work experience includes 8 years as a senior research geologist for Exxon Production Research Company in Houston, Texas.
