

David R. Wunsch

State Geologist and Director, *Delaware Geological Survey*

David R. Wunsch is the Director and State Geologist of the Delaware Geological Survey (DGS). Dr. Wunsch formerly served as the Director of Science and Technology for the National Ground Water Association (NGWA), and as an associate editor of the journal *Groundwater*. He was the State Geologist of New Hampshire from 2000 to 2010, and is a Licensed Professional Geologist in Kentucky, New Hampshire, and Delaware. Wunsch served as President of the Association of American State Geologists (AASG), and is a member of the federal Subcommittee on Ground Water (SOGW), which developed a framework for monitoring the Nation's groundwater resources. Dr. Wunsch is a Fellow of the GSA. He received the 1999 Outstanding Kentucky Geologist Award, and in 2014 the American Geosciences Institute's Outstanding Contribution to the Understanding of Geoscience award.
