Critical Issues: Map of the Day - Geoscience Features in Kentucky

Image credit: Kentucky Geological Survey

#MapOfTheDay! Today the Critical Issues Program (@AGI_GeoIssues) shared an interactive map of geoscience features in Kentucky from the Kentucky Geological Survey (@KGSNews), which you can find at <http://bit.ly/1HvVsFA>. The Karst Potential Map includes the locations of sinkholes throughout the Bluegrass State. For more information on sinkholes, check out our Sinkhole Basics.
