## AAG: Still Seeking Support for GIS&T AP Course

American Association of Geographers

 and or type unknown

The American Association of Geographers is still seeking letters of attestation for a new Advanced Placement course in Geographic Information Science & Technology (GIS&T) from high schools and colleges/universities. They currently have 78/100 letters from colleges/universities and 73/250 from high schools. Please direct this information to all interested parties on AAG's behalf.
