

## Drones & Geoscience Updates

American Association of Petroleum Geologists

The American Association of Petroleum Geologists published an interview Lyndon Nance, a land surveyor who uses fixed-wing drones for data collection on the LEARN! Blog. Nance shares his experience using drones as the industry as developed in recent years, and details some of his projects. The Environmental and Engineering Geophysical Society published an update in FastTIMES detailing the institution of CFR14 Part 107 for Small Unmanned Aircraft Systems (UAS) by the Federal Aviation Administration and details certifications, and the foundation of safe operations of drones in National Air Space.
