Critical Issues: One week until the AGI Groundwater Forum!

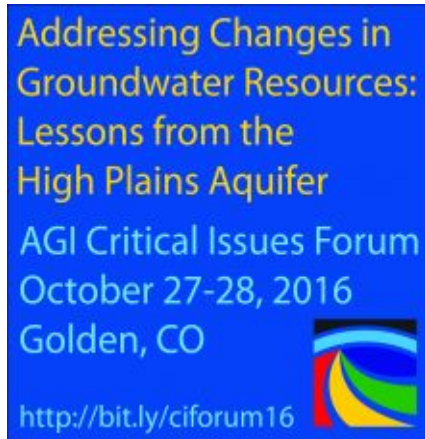

American Institute of Professional Geologists

Association of American State Geologists

Geological Society of America

International Association of Hydrogeologists/U.S. National Chapter

National Association of State Boards of Geology

There is still time to register for this event! The 2016 Critical Issues Forum, *Addressing Changes in Regional Groundwater Resources: Lessons from the High Plains Aquifer*, will be held October 27-28 in Golden, Colorado. If you are a current student or belong to an AGI member society, you will receive a discount on full priced registration. More information, including a full list of speakers, is available on the Forum website, <http://bit.ly/ciforum16>.

The 2016 Critical Issues Forum is organized by the American Geosciences Institute and will be hosted by the Payne Institute for Earth Resources at the Colorado School of Mines campus in Golden, Colorado.

The Forum is sponsored by the Geological Society of America, the National Ground Water Association, the American Institute for Professional Geologists, the National Association of State Boards of Geology, and the Association of American State Geologists. Our media partner is the U.S. National Chapter of the International Association of Hydrogeologists.

To receive the latest updates, subscribe to the Forum mailing list. We hope that you will join us October 27-28 for the Forum! Please contact Cassandra Rose (crose@agiweb.org) with any questions.
