AAG: NSF Seeking Survey Respondents

American Association of Geographers

 and or type unknown

The American Association of Geographers shared a survey that has been published by the the National Science Foundation Advisory Committee for Environmental Research and Education (AC-ERE) is looking for your assistance. The AC-ERE was tasked to identify relevant key research and education challenges over the next decade. A basic questionnaire (6 questions) was developed and they are seeking community input, specifically from the environmental sciences sector.
