Critical Issues: Webinar Update on Induced Seismicity in Kansas

Screenshot of video update
Screenshot of video update on seismic activity in Kansas.

We have a brand new update on last year's webinar, *Induced Seismicity in the Midcontinent*. One of our speakers, Rex Buchanan, former State Geologist of Kansas, has returned to provide us with an update on seismic activity in Kansas. You can watch the short video on YouTube here: <http://bit.ly/2fII6Ed>
