

## IUGS: Resourcing Future Generations Second Open Call for Proposals

The International Union of Geological Sciences has posted its second open call for the its global initiative called Resourcing Future Generations (RFG), to bring geoscientists together to address the world's future resource needs head-on. Bids for small top-up grants to take forward discrete pieces of work in support of RFG. Grants will average \$3000, but more may be awarded. More information ins available in right sidebar on the linked site.
