

Academic Program Data

The AGI Workforce Program collects data on geoscience programs globally. This data is used by a wide range of individuals and groups, including academic programs, government agencies, companies, and publishers. We rely on the collaboration of the geoscience programs to maximize the quality of this data. Below you will find some of the most frequently request data with an accompanying PDF for use in presentations and reports with proper credit.

Data about students

- U.S. Historical Geoscience Degrees Awarded
 - U.S. Historical Geoscience Enrollments
 - Female Participation Rate in U.S. Geoscience Enrollments and Degrees
-
