AGI at #AGU16 - (Wednesday) Insights into the Geoscience Workforce

Learn more about career paths of Master's and Doctoral graduates in the geosciences in Session ED34A-01 at AGU on Wednesday, December 14th. Join Workforce Program Data Analyst, Carolyn Wilson, as she presents her research on the geoscience workforce using NSF and AGI data, aided by novel visualizations to understand education and career paths over time to see how they have changed over the past few decades, as well as look specifically at the immediate plans of recent graduates as they enter the geoscience workforce. This data will also give some indication of the development of skills gained from these programs through activities such as field work and research.
