Don't Miss Tomorrow's #AAGChat on Careers in Geography

American Association of Geographers

Tomorrow, the American Association of Geographers (AAG) will be hosting their next #AAGChat on Twitter to answer questions on careers in geography. From 3:00-4:00 pm EST on Thursday, January 12th, AAG will be answering questions through their twitter account @theAAG. The chat will address the many diverse career opportunities for geographers in a variety of industries and employment sectors and how geography students, graduates and early-career professionals can identify appropriate job openings.
