

The Buzz About New #Drone Regulations from AEG

Association of Environmental & Engineering Geologists

Get all the buzz about the newest drone regulations in the AEG December Issue of AEG News from the Association of Environmental and Engineering Geologists (AEG). The story is found on pages 24-25, and goes over how the Federal Aviation Administration has simplified the rules for commercial drone operation including aircraft specifications, the differences in airspace classes, flight restrictions like Temporary Flight Restriction "TFR" that came into play during the last election, and there is a whole page devoted to pilot certification.
