

Stephen Ginley

Stephen Ginley is a rising senior at the University of Maryland, College Park studying geology. His main research interests are high temperature geochemistry and mineralogy and he will be conducting a thesis project on the origin of Albanian ophiolites with Dr. Richard Walker in the 2012-2013 academic year. He is a member of the Alpha Lambda Delta and Phi Eta Sigma Honors Societies and is the social chair of the Alpha Rho chapter of Alpha Chi Sigma, the professional chemistry fraternity. Last spring he worked to replenish bayou swamps in Louisiana with the National Relief Network and is eager to continue changing lives with geology this summer with AGI. He is originally from East Rockaway, NY.
