## Past AGI Fellow Gifford Wong shares experience at upcoming science storytelling event

Looking for science storytelling in DC? Free next Thursday night? The Story Collider is hosting a storytelling event featuring our 2015-16 Fisher Congressional Fellow Gifford Wong! Wong received his Ph.D. in Earth Sciences from Dartmouth College, and he now works for the U.S. State Department as a Science & Technology Policy Fellow for the American Association for the Advancement of Science. [Click here to learn more about this event or see the event information copied below:](#)

What's it like to be on the outside looking in? Whether you're a metal head who finds himself at a scientific conference or a glaciologist giving first aid to a seal, we all have stories about feeling like we're a little out of our comfort zone. This month we bring you stories of trying to find our place, whether in or through science, as outsiders.

Hosted by Shane M Hanlon and Farah Z Ahmad.
