## Choosing a Concentration While Pursuing a Civil Engineering Degree - Advice from the Ask Anthony Column

Geo-Institute of the American Society of Civil Engineers

As with most STEM majors, students are faced with the quandary of which concentration they should choose. In the latest installment of the "Ask Anthony" series from the American Society of Civil Engineers, Anthony Fasano P.E. gives students advice on questions he receives most. Specifically, he looks at how choosing a specialization both at the bachelor's- and master's-level may affect their careers.
