Geoscientists and Engineers Visit Congress #GWFlyIn #ASCE2DC

Geo-Institute of the American Society of Civil Engineers

Two AGI Member Organizations had members fly-in to D.C. and participate in a Congressional Visit Day to advocate and meet with their elected representatives. The National Ground Water Association hosted their "Congressional Fly-In" on March 7-8 during their Groundwater Awareness Week. Pictures of the #GWFlyIn are available on Twitter and on their Facebook page. The American Society of Civil Engineers, the parent organization of the Geo-Institute, hosted their own fly-in to talk to their members of Congress about infrastructure during the celebration of Infrastructure Week. Check out photos from their twitter account under #ASCE2DC!
