Sage Advice for Rising Geoscientists #geoscience

American Institute of Professional Geologists

TPG Cover for the January, February and March Issue

William Elliott, American Institute of Professional Geologists member and a Certified Professional Geologist, offers advice in his "Practice of Geology" column in the latest issue of *The Professional Geologist*. In it, Elliott cites "The Geologist in Engineering Organization," a 1950 Geological Society of America publication. Read it to see how you stack up! Students are invited to join AIPG for free!
