

The Great Geobakeoff - Risk Edition! #geoscience

Geological Society of London

Geos - it's time to wash off your mixing bowls, spatulas and frosting tips - the 3rd Annual Great Geobakeoff has arrived at the Geological Society of London (GSL), and this year the bakeoff theme will center around GSL's "Year of Risk." This year's winners will receive official 2017 Geobakeoff Aprons. GSL notes, that while the Great British Bakeoff has gone off air "its geological counterpart has refused all lucrative offers and elected to continue uninterrupted by commercial breaks." :)
