Federal Budget 101

Like any field of science, science policy has its own jargon, and one of the areas in which the science community gets particularly wonky is the budget process. This is the annual process by which the government...

March 10, 2017

The release of the budget proposal last month generated a flurry of discussion and speculation. Want to understand the federal budget but not sure where to begin? Julie McClure, Science Policy Manager for the American Society of Agronomy, Crop Science Society of America, and Soil Science Society of America (ACS), wrote an article in CSA News that gives a clear, concise introduction to the federal budget process. Read her full article [here](#).
