

Turning Prospects into Discoveries: The #ACE2017 Discovery Thinking Forum

American Association of Petroleum Geologists

What leads to the discovery of major oil and gas fields? How do advances in geological understanding and technology result in record discoveries? The American Association of Petroleum Geologists (AAPG) hosts the Discovery Thinking Forum to "fill an important gap in how technical and professional skills combine to turn prospects into discoveries." Explore the successes of enterprising AAPG geoscientists from the 2017 Annual Convention and Exposition in World Oil.
