

Charna Meth

Charna, who recieved both her bachelor's and master's degrees in geology from the University of Texas at Austin, will be spending nearly four months with AGI attending congressional hearings, researching policy issues, and writing issue updates for the program's web site. We gratefully acknowledge stipend support for the internship provided by the American Association of Petroleum Geologists.

Charna is now the Assistant Director of the U.S. Science Support Program for the Consortium for Ocean Leadership. (8/09)
