

AGI Publishes Geoscience Currents #117 #workforce #highered

Geoscience Currents #117ⁿ

In last week's Geoscience Currents #117, AGI's Workforce Program examines latest in enrollments and degrees granted in geoscience programs in the United States. In 2015-2016 undergraduate enrollments slipped about 5%, while graduate enrollments dipped slightly, meanwhile bachelor's and doctoral degrees rebounded, and master's degrees dropped.
