AAG Seeks Methods, Models, and Geographic Information Sciences Editor #GIS #Geography

American Association of Geographers

An AGI logo and or type unknown

The American Association of Geographers is currently seeking a Methods, Models, and Geographic Information Sciences editor for the *Annals of the American Association of Geographers*. The editor will be expected to solicit, review and accept papers across the breadth and depth of intellectual activity in this subject area of contemporary geography, including the ability to understand and assess cutting edge GIScience research and manuscripts. Nominations and applications are due by September 29, 2017.
