Reading Map Symbols

Topographic Map Symbols, **USGS**

This site has information on reading topographic maps.

USGS Geography Education Materials, **USGS**

A USGS site for kids and teachers. Describes map types and features, including how to interpret them.

[Back to Top](#)

Reading Geologic Maps

What is a geologic map and how is it used?, **Society for Sedimentary Geology (SEPM)**

Use this sample lesson plan to understand geologic maps.

Reading Geologic Maps, **About.com**

Follow this tutorial on how to read and use geologic maps.

Geologic Maps, **USGS**

Explanation of how geologic features and rock units are shown on geologic maps.

[Back to Top](#)

State Geologic Maps

State Geologic Maps, **USGS**

Provides descriptions and availability information for state geologic maps.

Association of American State Geologists, **AASG**

Obtain materials from your state geological survey.

Geologic Maps of States Online, **About.com**

Download state geologic maps from About.com.

[Back to Top](#)

National Geologic Maps

National Geologic Map Database,, **USGS**

Contains information on how and where to obtain geologic maps.

[Back to Top](#)

Regional and Local Geologic Maps

Bookstore of the American Association of Petroleum Geologists, **AAPG**

Click on Browse by Series and select AAPG maps for regional tectonic maps

Map Dealers, **USGS**

The United States Geological Survey maintains a list of Map Dealers. Click on your state to obtain a list of retailers who sell maps

USGS Store,, **USGS**

This site allows you to order 7.5 minute maps online for \$4 per map plus \$5 s/h per order.

General Map Resources

US Maps and Data, **geodata.gov**

Make maps using geospatial data and information.

General Map Information, **USGS Earth Science Information Center**

Includes general map information, from how to read maps to how to obtain them. Also includes links to further information regarding topographic, thematic, planetary maps, and more.

Maps of the United States, **USGS**

A USGS fact sheet, contains a series of depictions of the United States, along with information on how to obtain additional US maps.

Maps of the World, **USGS**

USGS fact sheet, contains a series of world maps, including outline maps, seismicity maps, and political maps. Also contains information for ordering more specific world maps.

National Atlas Maps, **USGS**

USGS site of a variety of US maps that are available online, including shaded relief maps, aquifer maps, and further information on how to order maps not available online.

This Dynamic Planet, **USGS**

A USGS map showing the physiographic features of the Earth, current plate movements, and locations of volcanoes, earthquakes, and impact craters

National Geographic Map Machine, **National Geographic**

For a wide variety of thematic maps, click on "Dynamic Maps" or "Atlas Maps". Enter a location you wish to search for, and select from any number of themes, ranging from elevation to ocean floor. (You may need to click on "Select a New Theme" or "Related Atlas Maps" to find the theme you are looking for.)

[Back to Top](#)

Dynamic Planet Maps

This Dynamic Planet, **USGS**

Simkin, Tom, et al., 1994, This Dynamic Planet: World Map of Volcanoes, Earthquakes, Impact Craters, and Plate Tectonic, published by the US Geological Survey, Reston, VA.

U. S. Geological Survey Earthquake Maps, **USGS**

[Back to Top](#)

Ocean Maps

Age of the Ocean Floor, **NOAA**

World Data Center for Marine Geology & Geophysics, Boulder.

[Back to Top](#)

Weather Maps

National Weather Service Home Page, **NOAA**

The Datastreme Project, **American Meteorological Society**

Contains a variety of up-to-date weather maps. Under the "surface" subheading, you can find maps showing temperatures, pressures, isotherms, and fronts, along with other current weather data.

Weather.com, **The Weather Channel Interactive, Inc.**

A current weather map of the United States is found on the homepage. You can view an enlarged version by clicking on the map. To find weather maps of your local area, type in your zip code or city and state at the top of the page.

Unisys.com, **Unisys Corp.**

View a current United States weather map on the Unisys homepage.

[Back to Top](#)

Satellite Maps

Google Maps, **Google**

Type the address into the search engine toolbar, at the top of the page. Wait for the map to come up. Click on "Satellite" in the upper right hand corner of the page. You will then receive a satellite image of your area.
