

Professionalism and Geoethics: Creating a Workplace Environment Where Everyone Can Succeed

This course introduces topics that contribute to workplace "climate" (e.g., microaggressions, implicit bias, empowering bystanders) and provides suggestions for personal and institutional actions that can be taken to ensure that everyone can succeed in the workplace environment. The course presenter is David W. Mogk, Professor of Geology at Montana State University.

Organization:

- American Institute of Professional Geologists

CEUs:

0.10
