AGI Award Guide (PDF)
Submit a Support Letter
For consideration for the 2023 Award, please submit materials by February 1, 2023. Submissions received after this date will be saved for later consideration.

The Marcus Milling Legendary Geoscientist Medal is given to a recipient with consistent contributions of high-quality scientific achievements and service to the Earth sciences having lasting, historic value; who has been recognized for accomplishments in field(s) of expertise by professional societies, universities, or other organizations; and is a senior scientist nearing completion or has completed full-time regular employment. Prior to 2007 it had been called the AGI Legendary Geoscientist Award.

Restrictions

The candidate must be living at the time of selection and, if possible, should be present for presentation of the award.

Selection

Nominations may be submitted to AGI by individuals or Member Societies. Nominations forms should include a detailed description of the candidate's achievements as well as a 50-word candidate citation. Award selections will be made by the AGI President's Selection Committee and confirmed by the AGI Executive Committee.

Presentation

Presentation of the award will be by the AGI Foundation Chair or his/her designee at an appropriate national society convention or meeting. In addition to receiving the award and citation, expenses will be covered for the awardee and spouse for reasonable travel and lodging to the place of presentation.
