

Water: ERRATA

Notes on the 2001 Edition

- Investigation 1: Use of Water in Your Home
- Investigation 2: Tracing Water in Your School
- Investigation 3: Sources of Water
- Investigation 4: Water Movement on the Planet
- Investigation 5: The Special Properties of Water
- Investigation 6: The Quality of Your Water Resources
- Investigation 7: Cleaning up Water Resources
- Investigation 8: Water Conservation Partnership Plan

Investigation 1: Use of Water in Your Home

NONE

Investigation 2: Tracing Water in Your School

NONE

Investigation 3: Sources of Water

NONE

Investigation 4: Water Movement on the Planet

Teacher's Edition, Page 115, Background Information

First sentence in the third paragraph should read: "Evaporation (change of water from liquid to vapor), condensation (change of water from vapor to liquid or solid), and precipitation (the falling of condensed moisture) are the major processes in the water cycle."

Investigation 5: The Special Properties of Water

Teacher's Edition, Page 159, Answer for the Teacher Only

First sentence should read: "...water is that it is less dense in the solid form than the liquid form." "less dense" replaces "more dense"

Investigation 6: The Quality of Your Water Resources

NONE

Investigation 7: Cleaning up Water Resources

NONE

Investigation 8: Water Conservation Partnership Plan

NONE
