

Meteorologists celebrate Labor Day – and serve the world.

Living on the Real World

“Without labor, nothing prospers.” – Sophocles

“Nothing will work unless you do.” – Maya Angelou

A day off is a good thing.

With ten such holidays here in the United States we might envy nations who offer more. Cambodia leads the world with 28. Sri Lanka is not far behind with 25. India and Kazakhstan each hold 21. But a closer look at the countries on this list reminds us there may be no need for jealousy; Cambodia and India have a six-day workweek; Sri Lankans work a half-day on Saturdays. Maybe that second day of weekend 52 weeks of the year is a better deal.

Most nations co-mingle civic holidays with the religious – in some cases multiple religions.
