What's Really Heating Up the Planet?
2015, Bloomberg
"Skeptics of manmade climate change offer carious natural causes to explain why the Earth warmed 1.4 degrees Fahrenheit since 1880. But can this account for the planet's rising temperature? Scroll down to see how much different factors, both natural and industrial, contribute to global...

**Resource Type:** Teaching Media, Videos or Animations

**Grade Level:** 6, 7, 8, 9, 10, 11, 12

Bristol Gem & Mineral Club

The Bristol Gem & Mineral Club fosters interest in the earth and geological sciences, minerals, and the lapidary arts. We're located in Bristol, CT, where we hold monthly educational meetings, field trips, and our annual gem and mineral show. Interested in rocks, minerals, lapidary works,...

**Resource Type:** Geoscience Organizations, Organizations
Earth Science Club of Northern Illinois (ESCONI)
The aim of the Earth Science Club of Northern Illinois (ESCONI) is to promote an interest in the earth sciences, among these are geology, paleontology, mineralogy, archaeology, micro-mounting and the lapidary arts.

Resource Type: Geoscience Organizations, Organizations

Inspirational Feature Near You
2018, American Geosciences Institute (AGI)
What’s an awe-inspiring natural feature in your state? Maybe it’s a mountain, canyon, waterfall, glacier, cave, volcano, geyser, natural arch, grand vista, or something else. Identify an inspiring landscape near you, and learn about the geoscience behind it. Start with the geologic maps available...

Resource Type: Classroom Activities, Curricula and Instruction
Grade Level: K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

For Educators and Visiting Groups: Teacher Professional Development
Liberty Science Center
As you plan for and implement the Next Generation Science Standards, Liberty Science Center's NGSS-focused Professional Development courses can make the transition easier. We can partner with you to evaluate and adapt your curricular models, lesson design, and pedagogy to capitalize on your...

Resource Type: Professional Resources, Teacher Professional Development

NOVA Labs, Cloud Lab
Public Broadcasting Service (PBS)
Covering some 70 percent of Earth’s surface, clouds play a key role in our planet’s well-being. But how do they form, why are there so many types, and what clues can they give us about the weather and climate to come? Try your hand at classifying clouds and investigating the role they...

Resource Type: Classroom Activities, Curricula and Instruction
California Education and Environmental Initiative (EEI)
CalRecycle Office of Education and the Environment (OEE)
The California Education and the Environment Initiative is a program of CalRecycle's Office of Education and the Environment (OEE). Our mission is to foster environmental literacy among all California students as part of a high-quality K-12 education. Environmental literacy builds critical...
