Education GeoSource

Everything You Need for Earth Science Education

Search for geoscience education resources from a variety of organizations that provide credible and accurate Earth and Space Science resources for all ages. The Education GeoSource database has thousands of free resources, from lessons to outreach and teacher professional development, for use in classrooms, scout programs, or at home.

Common Misconceptions About States and Changes of Matter and the Water Cycle
Ohio State University (OSU)
Water is a commonly used example of the solid, liquid, and gaseous states of matter. The properties of these states, along with the phase changes between them, are complex and easily misunderstood. The water cycle, too, is a subject with great potential for misconceptions among students and adults...

Resource Type: Classroom Activities, Curricula and Instruction, Curriculum Materials, Teaching Strategies
Grade Level: K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

NSTA's New Earth Science Test
American Geosciences Institute (AGI)
Describes the purpose and possible uses of the new American Geological Institute/National Science Teachers Association Earth Science Examination. Provides an order blank for obtaining the test. Stresses that the test is specifically designed to test concepts and problem-solving ability.

Resource Type: Assessments, Curricula and Instruction

Earthquake Quiz
Teacher Vision
A printable quiz regarding earthquakes. Questions test knowledge on what fault lines are, where most earthquakes in the US happen, what a seismograph measures, what tectonic plates are, what magnitude is, how long earthquakes usually last, and dangers to people during an earthquake. Students also...

Resource Type: Assessments, Curricula and Instruction
Grade Level: 4, 5

Multiple Choice Questions for Earthquakes, Chapter 16
University of Houston (UH)
A 47-question quiz on earthquakes. This assessment is designed to test your knowledge of material covered in the chapter and in the Internet-based resources.

Resource Type: Assessments, Curricula and Instruction
Portfolio Assessments
American Geosciences Institute (AGI)
Portfolios, in assessment terms, are collections of students' work that demonstrate what they have learned and are able to do over a period of time. In science, it's a bit trickier to use the portfolio method to best advantage. Since the ultimate goal of the portfolio contents is to...

**Resource Type:** Assessments, Curricula and Instruction

**Grade Level:** K, 1, 2, 3, 4, 5

Pre-Assessment Items: Fossils
American Geosciences Institute (AGI)
Pre-assessment tasks help you to find out what knowledge, experiences, skills and attitudes your students have before you begin any science instruction. In some instances, you might find it useful to have students write their responses to a short set of simple questions on the topic. Examples might...

**Resource Type:** Assessments, Curricula and Instruction

**Grade Level:** K, 1, 2, 3, 4, 5

Project Assessments
American Geosciences Institute (AGI)
Long, and short-term projects are great ways of assessing students' knowledge and presentation skills at the same time. In projects, students typically solve a problem, investigate a science issue, engage in a simulation, or a number of other activities. They then present their results in a...

**Resource Type:** Assessments, Curricula and Instruction

**Grade Level:** K, 1, 2, 3, 4, 5

Sample Questions for GEOSC 20 Final Exam
Pennsylvania State University (PSU)
Sample questions and answers from the GEOSC 20 Final Exam in 1996
Science Regents Examinations: Physical Setting/Earth Science
New York State Education Department (NYSED)
Science Regents Examinations, answer booklets, and scoring keys from January 2012, on. All examinations center around different topics in the earth sciences (meteorology, geology, planetary science, geology, etc.).

Resource Type: Assessments, Curricula and Instruction
Grade Level: 9, 10, 11, 12

Student Interview Assessments
American Geosciences Institute (AGI)
Student interviews are discussions with students about their understanding of scientific concepts and phenomena. You can do these with individual students or small groups, while the rest of the class is doing independent work. You can also do interviews if you have a team-teaching arrangement.

Resource Type: Assessments, Curricula and Instruction
Grade Level: K, 1, 2, 3, 4, 5

Recently Loaded Resources

Teaching with the AR Sandbox
University of Tennessee
The GIS lab has created teaching resources for K-12 community including lesson plans, 3D printer files, mini sandbox plans, and tips for using an AR sandbox with students.

Resource Type: Classroom Activities, Curricula and Instruction
Grade Level: K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

About Education GeoSource
https://egs.americangeosciences.org
Education GeoSource compiles geoscience education resources from a variety of organizations, providing credible and accurate Earth and Space Science resources for all ages. Visitors have access to thousands of free resources, from lessons to outreach and teacher professional development, for use in classrooms, scout programs, or at home.
We encourage visitors to review our collections, suggest other resources, and let us know when items are out of date or problematic for other reasons.
