 Agencies Working on Geoscience Issues in Minnesota

**Minnesota Board of Water and Soil Resources**
https://bwsr.state.mn.us/
The BWSR mission is to improve and protect Minnesota's water and soil resources by working in partnership with local organizations and private landowners. Core functions include implementing the state's soil and water conservation policy, comprehensive local water management, and the Wetland Conservation Act as it relates to the 41.7 million acres of private land in Minnesota.

**Minnesota Department of Commerce**
https://mn.gov/commerce/
The mission of the Minnesota Department of Commerce is to protect the public interest, advocate for Minnesota consumers, ensure a strong, competitive and fair marketplace, strengthen the state’s economic future; and serve as a trusted public resource for consumers and businesses.

**Minnesota Department of Natural Resources**
https://www.dnr.state.mn.us/
The mission of the Minnesota Department of Natural Resources is to work with citizens to conserve and manage the state's natural resources, to provide outdoor recreation opportunities, and to provide for commercial uses of natural resources in a way that creates a sustainable quality of life.

**Minnesota Environmental Quality Board**
https://www.eqb.state.mn.us/
The Environmental Quality Board is made up of 9 agency heads and 8 citizen members. In addition to other duties, they provide leadership and coordination across agencies on priority environmental issues that are multi-jurisdictional, and multi-dimensional, as well as provide for opportunities for public access and engagement.

**Minnesota Geological Survey**
http://www.mngs.umn.edu/
The MGS serves the people of Minnesota by providing systematic geoscience information to support stewardship of water, land, and mineral resources.

**Minnesota Geospatial Information Office**
http://www.mngeo.state.mn.us/
The Geospatial Commons is a one-stop catalog for Minnesota featuring open data which can be added to maps and research projects. Easily searched or browsed by contributing organization or theme, the Commons is steadily adding new resources.

**Minnesota Homeland Security and Emergency Management**
https://dps.mn.gov/divisions/hsem/Pages/default.aspx
The Division of Homeland Security and Emergency Management helps Minnesotans prevent, prepare for, respond to and recover from disasters and works to keep Minnesota secure from acts of terrorism.

**Minnesota Pollution Control Agency**
https://www.pca.state.mn.us/
The Minnesota Pollution Control Agency (MPCA) monitors environmental quality, offers technical and financial assistance, and enforces environmental regulations. The agency finds and cleans up spills or leaks that can affect public health and the environment. Staff develop statewide policy, and support environmental education.

Maps & Visualizations
Interactive database for geologic maps of the United States
U.S. Geological Survey

The U.S. Geological Survey hosts the National Geologic Map Database (NGMDB). This interactive tool serves as a national archive for high-quality, standardized geologic maps created by the U.S. Geological Survey and state geological surveys. The MapView section of the NGMDB displays geologic maps...

Case Studies & Factsheets

Dry well usage across the United States
Introduction Dry wells improve stormwater drainage and aquifer recharge by providing a fast, direct route for rainwater to drain deep into underlying sediment and rock. Dry wells are most common in the western U.S. where clay or caliche layers slow down the natural drainage of water into underlying...

Webinars & Forums

Geologic Mapping to Empower Communities: Examples from the Great Lakes
This webinar will introduce geologic mapping in the Great Lakes region, showcase projects from the Great Lakes Geologic Mapping Coalition, and review planning decisions made based on their work. Speakers from the Illinois, Minnesota, and Michigan State Geological Surveys will discuss case...
