Agencies Working on Geoscience Issues in Utah

Utah Department of Environmental Quality
https://deq.utah.gov/
DEQ's mission is, "Safeguarding and improving Utah’s air, land and water through balanced regulation." We implement State and federal environmental laws and work with individuals, community groups, and businesses to protect the quality of our air, land and water.

Utah Division of Oil, Gas and Mining
https://oilgas.ogm.utah.gov/oilgasweb/
The mission of the Utah Division of Oil, Gas and Mining is to regulate the exploration and development of coal, oil and gas, and other minerals in a manner which encourages responsible reclamation and development; protects correlative rights; prevents waste; and protects human health and safety, the environment, and the interests of the state and its citizens.

Utah Geological Survey
https://geology.utah.gov/
The Utah Geological Survey provides timely scientific information about Utah's geologic environment, resources and hazards.

Interactive database for geologic maps of the United States

U.S. Geological Survey

The U.S. Geological Survey hosts the National Geologic Map Database (NGMDB). This interactive tool serves as a national archive for high-quality, standardized geologic maps created by the U.S. Geological Survey and state geological surveys. The MapView section of the NGMDB displays geologic maps...
