## AGI Renovation Video

2018 marks the 70th anniversary of the American Geosciences Institute (AGI), and staff celebrated this exciting milestone with a festive video that captures the remarkable transformation of AGI's headquarters, featuring AGI people and programs. The video, directed and narrated by AGI staff member Mark Carpenter, is a before-and-after look at AGI – with a sprinkle of holiday cheer. The AGI Keystone Fund underwrites the completed renovation of AGI's headquarters and provides a bedrock of support for AGI's next 70 years. Help us reach these worthy goals by donating to the AGI Keystone Fund today.
