

View to the Future: Read AGI's 2018 Annual Report

FOR IMMEDIATE RELEASE

February 4, 2019

ALEXANDRIA, Va. – The American Geosciences Institute (AGI) is pleased to share its annual report, "View to the Future," which recounts the accomplishments of AGI and the geoscience community from October 2017 to September 2018.

"Geoscience provides the lens through which we most clearly view the possibilities of our world," writes AGI Executive Director Allyson Anderson Book. "As geoscientists, we understand that examining the past allows us to look ahead with enhanced certainty, capacity, and hope for the future."

"View to the Future" was distributed to print subscribers of AGI's EARTH Magazine in the January/February 2019 issue and is also available online.

About AGI

The American Geosciences Institute (AGI) is a nonprofit federation of 52 scientific and professional associations that represents more than a quarter-million geoscientists. Founded in 1948, AGI provides geoscientists with access to scholarly information, serves as a voice of shared interests in the profession, plays a major role in strengthening geoscience education, and strives to increase public awareness of the vital role the geosciences play in society's use of resources, resiliency to natural hazards, and health of the environment.

AGI is a not-for-profit 501(c)(3) organization dedicated to serving the geoscience community and addressing the needs of society. AGI headquarters are in Alexandria, Virginia.

The American Geosciences Institute represents and serves the geoscience community by providing collaborative leadership and information to connect Earth, science, and people.
