GeoRef Serials List Search

GeoRef contains North American references from 1666 to date and references to other areas from 1933 to date. This GeoRef Serials List, produced July 2019, includes over 25,000 serials which may have appeared in GeoRef. The Serials List is updated monthly.

Displaying 701 - 800 of 25747

Annual Report - Science Council of Japan (S) (0448-4703 (ARSJD3)) publisher Science Council of Japan, Japan

Annual Report - Smithsonian Institution (0097-644X (SIAPAT)) former title of Smithsonian Year (1965)

Annual Report - Smithsonian Institution, Center for Short-Lived Phenomena (0085-6142 (ARPHDG)) publisher Center for Short-lived Phenomena, United States

Annual Report - South Africa, Department of Mines publisher Republic of South Africa, Department of Mines, South Africa

Abstracts and Conference Programme - International Conference on Port and Ocean Engineering under Arctic Conditions (C) publisher International Conference on Port and Ocean Engineering under Arctic Conditions, International

Annual Report - South Australian State Energy Research Advisory Committee (1036-1278) publisher South Australian State Energy Research Advisory Committee, Australia
Province of Ontario

Annual Report of the Chief Engineer and City Surveyor - City of Montreal (1191-4076) publisher City of Montreal, Canada

Annual Report of the Coordinating Committee for Water Quality in the Ottawa River to the Governments of Canada, Quebec and Ontario publisher [publisher varies], Canada

Annual Report of the Department of Scientific and Industrial Research DSIR publisher Department of Scientific and Industrial Research (DSIR), New Zealand

Annual Report of the Director, Geophysical Laboratory, Carnegie Institution (0576-792X (CIWGA4)) publisher Carnegie Institution, Geophysical Laboratory, United States

Annual Report of the Eotvos Lorand Geophysical Institute of Hungary (C) (0524-8655) is parallel to A Magyar Allami Eotvos Lorand Geofizikai Intezet. Evi Jelentese

Annual Report of the Geological Department for the Financial Year (S) publisher Jamaica Geological Survey Department, Jamaica

Annual Report of the Geological Survey Department (S) publisher Republic of Botswana, Geological Survey Department, Botswana

Abstracts from the Arctic Forum (C) publisher Arctic Research Consortium of the U. S. (ARCUS), United States

Annual Report of the Geological Survey of Japan (S) publisher Geological Survey of Japan, Japan

Annual Report of the Geological Survey of Malaysia = Lapuran Tahunan Kajibumi Malaysia (C) (0126-5628) former title of Lapuran Tahunan - Penyiasatan Kajibumi Malaysia

Annual Report of the New Hebrides Condominium (0077-8435 (NHRGBQ)) publisher Geological Survey,

Annual Report of the Geological Survey, Western Australia (0511-6996) is parallel to Annual Report - Western Australia, Geological Survey

Annual Report of the Institute of Geoscience, University of Tsukuba (C) (0285-3175 (ARITDH)) publisher University of Tsukuba, Institute of Geoscience, Japan formerly Tsukuba, University, Institute of Geoscience, Annual Report (360)
Searching

Serial titles are given in GeoRef on a historical basis, so that if a serial had one title from 1965-1978 and a second, changed title, from 1979 to date, GeoRef references to 1965-1978 issues of the serial will contain the key title and ISSN for the former title and references to 1979 and subsequent issues of the serial will contain the key title and ISSN of the current title. To search for all references to a particular serial, use both current and former titles or ISSNs, as shown in this GeoRef Serials List.

You can also contact GeoRef for assistance in conducting your search at ml@americangeosciences.org.

About the GeoRef Serials List

Titles

This Serials List is a list of titles. Main entries consist of:

- **ISDS Key Title** (except for titles which have been inactive since 1988, not converted to ISDS).
- **Publisher** — The name of the publisher and country of publication are given, if known, except for inactive titles.
- **Alternate titles** — The following kinds of alternate titles are given, if known, except for inactive titles:
  - Parallel title (indicated by `parallel title`)
  - Former title (indicated by `formerly`)
  - Title of supplement (indicated by `has supplement`)
  - Title of translation (indicated by `translated title`)
  - Related title (not one of the above) (indicated by `related title`)
  - A vertical bar separates multiple titles
- **ISSN** — International Standard Serial Number of the main entry title. Includes online ISSN's. Given when established, except for inactive titles.
- **CODEN** of the main entry title — Given for many titles. Began to be used in the early 1970s in GeoRef.

Cross references from the above alternate titles are provided. ISSNs and CODENs of these alternates are included in some of the cross reference entries.

Coverage

“Serial” defined

The definition of "serial" used is that given in the Guidelines for the International Serials Data System (UNESCO, Paris, 1973):
A serial is a publication in print or in non-print form, issued in successive parts, usually having numerical or chronological designations, and intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, directories, etc.), journals, memoirs, proceedings, transactions, etc. of societies, and monographic series. It should be noted that this definition does not include works produced in successive parts for a period predetermined as finite, and that it allows the inclusion of unnumbered series.

**Which issues were scanned for GeoRef?**

Inclusion of a serial in this list does not mean that the serial was scanned for GeoRef each year the serial was published. Prominent geological serials most probably were covered during this entire period. (C) following a serial title indicates at least one issue of the serial has been scanned for GeoRef since 1990. (S) following a serial title indicates the serial is cited only as a serial in GeoRef and that individual issues are not analyzed, usually because no signed articles appear in the serial. (Questions on which issues of a particular serial have been scanned should be addressed to the AGI library.)

**Serials and non-serials in GeoRef**

Serials account for roughly 85% of the total references in GeoRef. The non-serial materials that make up the rest of GeoRef include books, reports, maps, and theses. References in GeoRef can be searched online by document type.

**Serials in the B.I.G.**

The annual cumulations and monthly issues of the Bibliography and Index of Geology from 1980 through 2005 included a serials section, which showed the title, imprint or abbreviated title, CODEN or ISSN (or both), volume, number, and date of each serial cited in that cumulation or issue. For example, in 1992 GeoRef added citations from approximately 4,000 serials which are listed in the Serials section of the 1992 cumulation. Prior to 1980, the monthly issues and annual cumulations contained lists of serials arranged by abbreviated title consisting, for each serial, of abbreviated title followed by full title. Usually the full title includes the publisher and place of publication. The entries in the serials section of the Bibliography and Index of Geology provide additional information not contained in the individual citations of the Bibliography, which contain only key titles or abbreviated titles.
