#14: Data analytics and machine learning - Baishali Roy

SEG's Seismic Soundoff

Dr. Baishali Roy, special section coordinator for the March 2017 issue of *The Leading Edge*, joins Andrew Geary to discuss data analytics and machine learning in geophysics. Dr. Roy has worked at ConocoPhillips since 2000. She currently serves on the TLE Editorial Board. Subscribers can read the full articles in the SEG Digital Library at <http://library.seg.org> and for those currently not subscribed, abstracts are always free. Visit <http://seg.org/podcast> for show notes. Sponsor The SEG Wiki is home to hundreds of biographies of key geoscientists, geophysical tutorials, and core content from the science of applied geophysics. Visit <http://wiki.seg.org> to learn how you can grow the world's first online, geophysics encyclopedia.
