Geoscience Event Calendar Launched for Geoscience Community

ALEXANDRIA, Va. — The American Geosciences Institute (AGI) is pleased to launch its new Geoscience Event Calendar, featuring events sponsored by AGI Federation organizations.

The calendar, available to view for free by anyone, features events posted by AGI Member Societies, International Associates, Regional Associates, Trade Associates, Academic Associates, and Liaison Organizations.

Now geoscience professionals can go to one place to see many major events taking place in the coming months and years, and society leaders can plan future events with the help of a resource that provides a clear view of the timing of upcoming events.

"AGI's new Geoscience Event Calendar is an online tool designed to showcase the many in-person, virtual, and hybrid events that help to make our network of geoscience societies such a vibrant, robust professional community," said AGI Executive Director Jonathan Arthur. "These conferences, meetings, webinars, and more are the events where geoscience community members share, learn, and make connections that matter."

Visit online to see the Geoscience Event Calendar today: <https://www.americangeosciences.org/calendar>

About AGI

The American Geosciences Institute (AGI), a federation of scientific and professional associations representing over a quarter-million geoscientists, is a nonprofit 501(c)(3) organization dedicated to serving the geoscience community and addressing the needs of society. AGI headquarters are in Alexandria, Virginia.
