Professional Protip: Job Interview Questions from AGU Career Services #workforce

American Geophysical Union

The American Geophysical Union (AGU) published a helpful piece in *Eos* for any scientist who has, or may, seek employment straight from the AGU Career Services and Talent Pool team members. Readers are walked through the traditional interview questions, and some of the best ways to answer them. Definitely a piece all geos should check out! Interested in more information about a career in the geosciences? Check out reports, *Geoscience Currents*, and webinars all available from AGI. Additionally, our member organizations offer tips about a career in their discipline and list job postings through their websites, newsletters, and journals.
